

## What's New?

### Disco 4 wheelcarrier

A few design tweaks were required and now our tried and tested wheelcarrier is suitable for both the Disco3 and Disco4. (Beware of cheap imitations).

This Disco4 was also fitted with our roofrack and table and twin drawer system.

### Defender 130 Light guards

This easy-to-fit light guard is probably the best one we've done so far. They are made from st/steel and then powdercoated black.

Thanks for allowing us to trial fit to your car John – you must come and get your free set!

At this stage, they are only available from Big Country.

### Defender 130 extra long range tanks

Two "jumbo" under-chassis tanks designed to carry over 90ltrs of fuel and 90ltrs of water.

Shown here fitted with Siderunners.

This product is only available to be fitted at our workshops.
